

Restorers of Heritage Buildings

We delight in fixing beautiful buildings of old, carving stone and brick to replace their broken bones, and just like our own, we have tired and worn old joints that need treating to help them keep on.

Stone replacements and repointing - Hart House U of T, Toronto.

Hand carved threshold installed -
Weselyville Church, Port Hope.

Chimney rebuild -
St. Francis de Sales - Ajax.

Brick replacements, prepaint-
Office facade, Millbrook.

Dutchman carving -
Royal York Hotel, Toronto.

Bio

Akira Inman & Evan Oxland founded a firm of passionate individuals dedicated to the execution of authentic restoration, creative stone work and tasteful landscapes. Their diverse resume and portfolios include places like 24 Sussex, the University of Toronto, Queen's Park, Royal York, as well as heritage buildings, public spaces, churches, and private estates. They are committed to the advancement of excellence in both execution and design in the craft and trades of masonry and landscape by continually engaging in a contemporary discourse in these fields, on both an academic and public level; they remain timely, relevant, and creatively active.

Builders of Fine Stone Structures

Stone upon stone, we lay them on top,
Not a dollop of mortar – No, not even a drop!
In structure we use friction and weight,
To find its own binding, surely as fate.

Dry stone retaining wall - Private residence, Cobourg.

Dry stone retaining wall - Private residence, Port Hope.

Dry stone walling seminar - Hart House Farm, Caledon Hills.

Free standing curved dry stone wall - Private residence, Port Hope.

(Finished photo of wall shown at the bottom of the brochure)

Dry stone garden feature - Private residence, Gualala, California.

A collaboration with Sean Adcock and John Shaw-Rimington.

Designers of Landscape

Oftentimes we get the chance to make plans,
Laying out lines of stones and plants,
Flouncy and firm, cheery they play,
Bold and assured is surely the way.

Dry stone wall, 7" thick stone driveway, and full designed and installed garden - Private residence, Port Hope.

Full garden design and installation - Private residence, Port Hope.

Hard carved trough with alpine plantings - Private residence, Port Hope.
